

Following yesterday's news that Ghana's borders were closing at midnight on 22/03/20, Budd's Tunis office has provided the information below.

COVID-19: Tunisian Borders Closed & Confinement Measures

Budd Tunisia advises that the government has closed all air, sea and land borders with a view to containing the COVID-19 outbreak.

All ports remain open to cargo vessels but they are closed to passenger vessels.

Confinement measures have also been introduced with the result that our colleagues in Tunisia are now working from home.

Travel from one town to another is only authorised in case of emergency.

In case of need, please contact Ms Hedia Ben Alaoui by email, or on her mobile phone:
